

## **State engagement with NSDA TAMIL NADU**

- **First NSQF orientation workshop held**  
22.06.2015
- **NSQF workshop with Core Committee held**  
04.11.2015
- **Key outcomes of the workshop**
  - a) First level of orientation held in the state
  - b) Core Committee on NSQF formed in the state
- **Status of Core Committee**  
Constituted with Secretary, Dept of Labour and Employment as the Chairman
- **Challenges in implementation**
  - Engagement has been going on with Tamil Nadu since 2015, still no concrete evidence on any progression in terms of NSQF alignment.
  - Due to change of MD of the SSDM, reorientation on NSQF is required frequently, so permanent officials should be allocated for handling NSQF related issues within the department
  - Coordination with other departments of skilling for reporting skill target and achievement, initiative is lacking
  - Delay in sharing Information on skill related activities with NSDA
- **Way forward**
  - Tamil Nadu has decided to start with Department of Education and Training as pilot for aligning its courses to NSQF. A committee has been constituted within the department to work on the same
  - Meeting with core committee to be scheduled shortly
  - List of courses to be identified
  - Alignment of one polytechnic course with NSQF
